COMMERCIAL INTELLIGENCE

THURSDAY EVENING, MARCH 24.

THE London Money Market shows every indication of increasing ease, a further payment into the Bank of England of £150,000 being advised in yesterday's telegram, while in the open market the rate of discount stands ½ per cent. below the bank. Consols are ⅛ higher at 100½, French Rentes ½ higher at 121½. Enfaced Rupee Paper shows an advance of ⅛ in Fours and ¼ in Fours-and-a-half, the quotations being 84¼ and 91½ respectively. Chartered and Mercantile Bank shares are both 10s. higher.

In General Produce the only change of any kind is a partial decline of 1s. per cwt. in Coffee.

Metals are all as last quoted. Piece-goods in Manchester dull.

The Liverpool Cotton Market yesterday closed flat, sales 7,000 bales, of which 500 were Surats. Americans show a decline of 1-16d. on the spot, and private messages say to arrive also, although Reuter makes it only 1-32d. on the latter. In New York ready Mid.-Uplands remain unchanged at 10 13-16 cents., but June shipment has receded from 10·84 to 10·77 cents. per lb. The receipts at the ports give the following comparisons :—

	1881.	1880.	1879
Wednesday's receipts	9,000	7,000	11,000
Five days' do.	56,000	38,000	40,000
Total since 1st Sept.	4,912,000	4,442,000	4,084,000

At the weekly biddings for Council drafts on India in London yesterday an average of 1s. 7 15-16d. was obtained. This is about the figure generally anticipated here, and apparently also in London. Bar Silver remaining unaltered at 52d. per oz. It is worthy of notice, however, that shipments of Silver to the extent of £50,000 are advised by yesterday's P. & O. steamer from Southampton for this port, showing that holders are now easier to deal with. In addition to this the same steamer also brings £30,000 in Gold.

EXCHANGE opened steady, and has continued so throughout the day, with no practical change in rates. There have been few buyers of private paper at the best rate, but on the other hand, there has been no great amount offering ; so that any firmness on the one side has been compensated by the indifference to forcing business shown on the other. We quote :—

Bank Bills on demand	Is. 7 15-16d.	per rupee.	
Do. telegraphic	Is. 7 29-32d.	,,	
Do. 3 months' sight ...	Is. 1 15-16d.	,,	
Credits, 3 ,, ,,	Is. 8 7-32d.	,,	
Documents, 3 ,, ,,	Is. 8¼d.	,,	
France, 3 ,, ,,	2 Fr. 46c.	,,	

On Calcutta we still quote demand drafts at par to 1-16 per cent. discount ; 60 days sight ¾ per cent. discount, nominal.

GOVERNMENT PAPER.—The market opened very strong with an active enquiry, and rates advanced to Rs. 102½ for Fours and Rs. 110⅜ for Fours-and-a-half. During the afternoon, however, buyers withdrew, and rates have quietened down to Rs. 101 15-16 and Rs. 110½ respectively. Everything now depends on the Budget, regarding which nothing is known up to the time of writing.

SHARES have been quieter to-day, and in some cases rather lower. Bank of Bombay's are unchanged at Rs. 743½. Colaba Land Shares are steady at Rs. 820, Port Canning's Rs. 2½ lower. In Press Shares Sind are Rs. 5 and Prince of Wales Rs. 25 higher, whilst Fort Press are Rs. 25 lower. Spinning and Weaving Co. are quiet and generally Rs. 5 lower. Bombay Saw Mills are Rs. 5, Bombay-Burmah Trading Co. Rs. 10, and Thacker and Co., Limited, Rs. 2 per share higher.

COTTON continues very quiet so far as actual business is concerned, a reduction of Re. 1 to Rs. 2 per candy on the part of sellers having failed to attract buyers, who, between mail-work and taking delivery of March contracts, have had their hands pretty full. All chance of any corner for 25th deliveries is now over both in Broach and Omras, and there may now be some possibility of prices settling down to more of a parity with home quotations. The following are closing rates :—

Good Oomra, April delivery	Rs. 198 per candy.	
F. G. F. ,, ,, ...	,, 181	,,
G. F. ,, ,, ...	,, 174	,,
Good Broach, March	,, 221	,,
Ido. do., April	,, 220	,,
Good Dhollera, ,, ...	,, 198	,,
F. G. F. do.	,, 180	,,
G. F. do.	,, 178	,,

LINSEED is quiet at Rs. 6-4 ready and Rs. 6 3 per cwt. May delivery.

WHEAT is firm at previous prices.

FREIGHTS are pretty steady. For Liverpool 31s. 3d. is now the lowest quotation for immediate shipment, and 32s. 6d. for early April. May loading has been done at 35s. Several steamers have been fixed within the past day or two for May loading at 38s. 9d., open charter, and there is still business practicable at the rate.

PIECE-GOODS are dull without change of any kind. In the bazaar the off-take is most limited, and indents are not more active.

COALS are a shade firmer, a considerable business having been doing from the bunder within the past day or two. To arrive there are no sellers.

Messrs. C. MARCKS & COMPANY,
OF
BOMBAY and POONA,

HAVE the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has appointed them AGENTS for the sale of his celebrated PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. MENIST makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes ; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. MENIST'S NON-PRESSURE EYE-GLASSES have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure or leaving any mark when removed.

His 12-lens "DUCHESSE" are all Achromatic and as powerful as Field Glasses.

His FIELD, MARINE, and OPERA GLASSES may be used for hours without causing the eyes to ache.

Mr. MENIST has left instruments with Messrs. C. MARCKS and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

MESSRS. C. MARCKS and Co., for the convenience of clients who may not wish to purchase Mr. MENIST'S GLASSES, have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames, and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

WHILE HIS EXCELLENCY the GOVERNOR is in BOMBAY a SECOND BOOK will be KEPT in the Entrance Hall of the Secretariat, in which gentlemen desirous of writing their names for His Excellency can do so instead of going to Government House for that purpose.

MR. J. CAMPBELL takes over the acting appointment of Collector of Bombay from Mr. Acworth, who reverts to the Secretariat. Mr. McPherson takes privilege leave for three weeks.

THE district season-reports showing the state of the weather and public health and prospects of the crops throughout the Bombay presidency for the week ended the 21st instant are officially summarised as follows:—Rabi harvest progressing. Fever in places. Slight cattle-disease. Slight rain in parts of Sind.

THE *khillut* to be presented by the Government of India to the Maharaja of Mysore, on his installation to the *gaddi*, was despatched last Tuesday evening from the Government Toshakhana, Calcutta, by the ordinary mail-train in charge of Babu Grish Chunder Bose. The *khillut* is estimated to cost a lakh of rupees, and consists of a necklace and headornament studded with precious stones, a massive gold armlet and a pair of bangles, Kashmere shawls, kincob, a pair of glass tables, besides other articles of minor value.

HIS EXCELLENCY THE COMMANDER-IN-CHIEF has notified, in a General Order, that military officers travelling by the British India Steam Navigation Company's Calcutta and London line of steamers will not be held liable to any penalty if they arrive at their destination after the expiry of their leave, provided the vessels are due to arrive within the term of such leave. This concession has hitherto been confined to officers travelling by the P. and O.

A COMMISSARIAT conductor at Kamptee is reported to have been placed under arrest, charged with misappropriating Government property to the extent of Rs. 17,000.

ONE lakh of rupees, it is stated, has been demanded from the Waziris by the Government of India, as compensation for the misbehaviour of the tribe.

THE *Indian Herald* states:—There is now no longer any doubt as to Sir Donald Stewart's successor in the Viceregal Council. We believe we are correct in announcing that the Government of India have selected General Sir Frederick Roberts for the appointment, and that the Secretary of State has approved of the selection. We have very good grounds for supplementing this statement with the further announcement that until General Roberts' assumption of the office, Colonel Chesney will officiate as Military Member of the Viceroy's Council.

THE screw gun battery (1-8 R. A.) and No. 8 Company Bengal Sappers and Miners started from Togh for Bannu, *vid* Teeree, on the 21st inst., to join the reserve brigade.

THE *Hindoo Patriot* mentions a remarkable case of longevity. Babu Annund Chunder Bose of Calcutta, formerly a clerk of the late Salt Board, has joined the majority after attaining the age of about one hundred years. He enjoyed pension for more than 40 years. Within a few months of his death he used to take his morning constitutional regularly, and to walk about two miles. He was a very intelligent man, knew English, Persian, and Bengali, and used to spend his time in literary studies.

THE *Ben,alee* has the following:—"We understand that an additional native member is to be appointed to the Viceregal Council, and that the choice lies between Nawab Ahasunullah of Dacca and the Maharajas of Hutwa and Durbhunga."

MR. YUSUFALLI HIPTOOLLA, whom some of the American papers have represented to be an Indian prince travelling in the new world with his zenana at his heels, has written to the *Bombay Samachar* from the port of New York explaining how the mistake regarding his identity has arisen. Mr. Yusufally is a Bombay trader in hardware and other manufactures of Europe and America; and his American agent, when recently on a visit to Bombay, induced him to visit the continent and America on a business-combined-with-pleasure expedition. In the same steamer in which the Bora left the American gentleman also sailed, and on his own account took with him a brace of Indian performers and some *nautch*-girls, with the view of exhibiting their performances to American audiences. Before the whole party had entered the New York port, reporters of some of the numerous forward newspapers of the place boarded the steamer, and having interviewed the purser, wrote out a flowery account, in which they represented Mr. Yusufalli as an Indian prince who had so far freed himself from the savagery of caste and ignorance as to be alive to the pleasure and advantage of sojourning with his ladies in enlightened countries. The Boree gentleman is indignant at the misrepresentation, and disowns any complicity therein. He moreover disclaims having anything to do with the *nautch*-girls, and deliberately refuses to exalt them to the dignity of his *zenana-boojees*.

IT is stated that on the recommendation of Colonel J. Johnstone, the Political Agent in Munipore, the Government of India in the Foreign Department have sanctioned the formation of a contingent for duty in that State. The Military Department has been requested to supply three officers—a commandant, an adjutant, and a medical officer—for duty with this corps. It will, when at full strength, be composed of 800 men; but it is not contemplated to keep more than 200 men under arms or with the colours, the remaining 600, after being fully trained, will be allowed to return to their homes, but they will be liable to be called out for service whenever required. There has been some difficulty in obtaining sanction for such a corps, as Government feared that it might form a precedent for other independent Native States to make similar requests. It is considered, however, impossible for the Munipooris to resist any attack from Burmah without some such assistance.

OF the Mysore installation celebrations, the *Madras Mail* remarks:—The central day of the *tamasha* will be Friday next, the 25th instant, when Mysore will become again a Native State, and will be blessed with a Dewan in the person of Mr. Runga Charlu, C. I. E., and a Resident in the person of Mr. J. D. Gordon, C. S. I., who will have as his Assistant Mr. J. W. Cuningham, Bo. C. S., his present Secretary. His Highness came of age (eighteen) the week before last, and last week he was made the happy father of a princess. The interest in the rendition is of a very local character, and even locally it does not arouse much enthusiasm. Mr. Adam will have, if not a good, at any rate a hot time of it at Mysore, and he may be trusted to return with satisfaction to Madras, where he is due on the 29th.

THE same paper remarks that Mr. Adam's departure from the presidency has conferred upon the Hon. W. Hudleston, the Senior Member of Council, the proud privilege of being "the Government." He is Governor in Council, Commander-in-Chief, and first and also second Member of Council all at once, for, as aforesaid, Mr. Adam has departed *pro tem.* from the presidency, there is no Commander-in-Chief, and Mr. Carmichael is still touring around Rumpa-land, and covering himself with glory and mosquito-bites.

LIEUTENANT-COLONEL LOCKHART, C.B., Officiating Deputy Quartermaster General for Intelligence, is likely, says the *Englishman*, to obtain the vacancy in the command of the 14th Bengal Lancers. Colonel Lockhart has strong claims in this regiment, of which he was the adjutant, and he would have succeeded to the command in the natural run of promotion had he not voluntarily surrendered his regimental position in order to proceed on service to Abyssinia.

THE *Urdu Akhbar*, a paper published at Akola, gives an account of the execution of two murderers at that place. It appears that one of the criminals, while the noose was being adjusted, addressed a squad of sepoys drawn up in front of the gallows, and after animadverting in strong language on the English rule, which he said was based on oppression and tyrrany, called upon all good Hindoos to extinguish it by the sword; and this he repeated twice. The writer of the report thinks "the behaviour of the two convicts is a curious contrast. The illiterate criminal bore the trial calmly and manfully, but the educated Hindoo, who had risen to be a village school-master, took the opportunity of displaying his disloyal and bloodthirsty disposition. If the result of educating Berar youths is to make them seditious, it would be well if Government were to pause in its philanthropic efforts in the direction of education, which without religion and morality as the foundation is worse than absolute illiteracy."

VICE-ADMIRAL WILLES took over the command of H. M.'s naval forces in the China seas from Admiral Coote on the 1st of March, at Singapore.

THE s. s. Parisian, unstructed for Messrs. Napier for the Allan Line, which is the largest steel steamship afloat, recently made her first trip from the Clyde to the Mersey. She is 450 feet long, with a gross tonnage of 5,500, a loading displacement of 10,000 tons, and engined up to 6,000 indicated horse-power. She is fitted with water-tight compartments, possessing very large cargo space, and is provided with accommodation for 150 first-class and 1,100 steerage passengers. During the run from the Clyde to the Mersey the ship, despite a chopping sea and squalls, proceeded without perceptible motion to those on board, amongst whom were the Earl of Kintore, Sir William Wiseman, Admiral Gough, and Professor Sheldon; Mr. Colmer, secretary to Sir A. Galt; Mr. J. Dyke, Canadian Emigration Department, Liverpool; Mr. St. John, Emigration Commissioner of the St. Paul, Minneapolis, and Manitoba Railway; and Mr. Pym, representative of the Ontario Government. The estimated cost of the Parisian is £200,000.

LETTERS, dated Jan. 5, from Hassi Messeguem, have been received from Colonel Flatters, commanding the expedition to the Sahara and Central Africa. The expedition has, up to the date mentioned, been thoroughly succeeded in its objects, and met with no hostility on the part of the native tribes. Between Dec. 19 and Jan. 5 the south-east portion of the plateau of Admayt was explored, and a map of the region drawn up. Notwithstanding the invitation of friendly Arabs to visit Insalah, Colonel Flatters continues to push on towards his ultimate goal, the central part of the Hoggar district. The members of the party are all reported well.

THE proposal to establish a naval arsenal at Chatham has been finally abandoned. Had it been carried out, it would have involved the discharge of 5,000 men from Her Majesty's Arsenal at Woolwich.

PRINCE BISMARCK, it is said, is greatly dissatisfied with the mode of procedure adopted by the various Ambassadors in their negotiations at Constantinople, as contrary to his view of the fashion in which the Porte should have been dealt with. This fact is not considered indicative of a peaceful solution of Eastern difficulties.

THE Limitation of Actions Bill introduced into the House of Lords, and brought before the House of Commons in its amended shape, provides that actions for slander shall be brought within one year; for assault and battery within two years; for penalties, damages, or sums of money given by any statute passed hereafter within one year; and for the recovery of goods and money within three years.

ACCOUNTS have lately been published in the Transatlantic press of a chicken-hatching machine far more ingenious and surprising than similar contrivances with which we are already familiar. The Henophon, alleged to have been invented by an uncommonly intelligent Illinois farmer, is described as an "arrangement in electricity," by means of which any experienced and trustworthy hen may be enabled to hatch an indefinite number of broods at one and the same time without incurring any abnormal waste of vital force. Her nest, occupying a central position in the poultry-breeding establishment, is electrically connected with all the other nests duly furnished with eggs, and by simply sitting upon her own complement in the good old-fashioned way, she hatches the lot. There would appear to be but one objection to this mechanism. It is too powerful. Not only does it hatch all the chicks latent in the real eggs, but it acts with such vigour upon the china imitations placed in the central nest as delusive stimulants to incubation, that every now and then one of these "counterfeit presentments" is found to produce a shiny, stiff-jointed chicken with glass eyes, set in a fixed stare, and a flesh texture rendering it altogether uneatable. Barring this solitary drawback, the Henophon would appear to realise triumphantly the objects aimed at by its inventer.

THE Russians are not yet in Merv; but the special correspondent of the *Daily News* is,—at least if we are to believe the "telegram from Merv," proudly published by that enterprising newspaper. And though there is still room for doubt, it is well within the bounds of possibility that Mr. O'Donovan has gone on from Kelat-i-Nadir to the settlement of the Merv Turcomans. Indeed, the wonder is that he is the first Englishman who has reached Merv since Mr. Taylor Thompson was there. Colonel Valentine Baker and Captain Gill, R.E., were very near getting to Merv in 1873, and Colonel (now Sir Charles) Macgregor was nearer still. If Mr. O'Donovan is in Merv, it seems extremely likely that he will soon be followed by Captain Gill.

WHY, asks a London newspaper, should not lighthouses learn to spell out their own names? Such is the latest idea of our scientific men, and the last word of the advanced educationists. Some distinctions there are at present, but too many of those "towers along the steep," which, in spite of the poet Campbell, Britannia does need, are furnished with fixed lights, and these have been more than once confounded with the ordinary gleam from a seaport town, or even a village on the cliff. It might be thought that the glare of our beacons, with all their costly apparatus and multiplied reflectors, could never be mistaken for an ordinary lamp; yet Professor Tyndall stated at the Society of Arts on Wednesday night that "in certain conditions of the atmosphere a candle in a lantern and the electric light were undistinguishable by mere appearance," so that Shakespeare's "How far that little candle throws his beams!" had a scientific basis. It is now proposed that by a system of "group flashes" every lighthouse in the United Kingdom should ling key worked by an operator in accordance with the ordinary Morse code of signals, and the continuous hum which it otherwise would excite in the corresponding fork at the receiving end is broken up into longer and shorter sounds which the ear interprets as a message. The system has been tried during six weeks between Boston and New York in its quintuple form, that is, five separate messages simultaneously; and it is stated that on the 21st January five operators in Boston and five in New York sent and received 2,130 messages in an hour. The inventor has been wisely encouraged by the Western Union Company with the promise of 200,000 dollars if he should succeed; and if by combining the duplex system with the quintuple he should achieve the feat of sending ten simultaneous messages, his reward will be largely increased.

ARRIVAL OF SIR JAMES FERGUSSON.

AFTER a period of three weeks, occupied by his tour through the Southern Mahratta country, Sir James Fergusson returned to Bombay yesterday morning by the sea-route from Mahableshwur. At 6 a. m. a guard of honour, consisting of 100 rank and file of the 25th Regiment N. I., under the command of Captain Lynch, paraded at the Apollo Bunder, while some sowars of the Governor's bodyguard stood on their left. Captain Carew, Superintendent of Marine, and Captain Shaik Cassum, aide-de-camp to His Excellency the Governor, were early at the bunder, looking wistfully in the south-east direction of the harbour to discover some sign of the approach of the May Frere, by which Sir James was coming from Nagotna. At 6-15 a. m. Mr. Hart, Private Secretary, drove up the bunder in a State carriage and pair, and accompanied by Captain Shaik Cassum, and attended by a puttewallah who carried a despatch-box and a copy of the morning's *Bombay Gazette*, started in a Government steam barge to meet His Excellency on board the steamer and escort him thence. Before she came to her moorings, a number of gentlemen had assembled at the bunder, among whom were observed Brigadier-General Aitchison, Captain Cooke-Collis, General Trevor, Consulting Engineer to Government for Railways, Colonel Hancock, Sir Frank Souter, Dr. Weir, Mr. J. Pollen, Mr. Macnabb Campbell, and Rao Bahadoor S. P. Pundit, Oriental Translator to Government. As the barge touched the bunder, General Aitchison and Captain Carew went down the landing-steps, which were covered with scarlet cloth, and met His Excellency as he stepped ashore. The troops presented arms; the band struck up the National Anthem; and the land battery fired a salute of seventeen guns. Colonel Henry Stracey, Military Secretary, returned to Bombay with Sir James.

An arrangement had apparently been made that His Excellency should, the moment after he landed, visit the Nesbit lane rail way level-crossing, which formed the subject of a recent memorial to Government. Accompanied by General Trevor, who was to leave Bombay in the afternoon by the mail-steamer, Colonel Hancock, and Mr. Hart, Sir James drove from the bunder to the Boree Bunder station, whence the party proceeded to Byculla by a railway carriage. Having inspected the level-crossing and conferred with General Trevor and Colonel Hancock, His Excellency returned to the Boree Bunder station, and thence drove to the Secretariat, which he reached after 8 a. m. Having transacted public business all day, Sir James left the Secretariat at 7-15 p.m. for Government House, Malabar Point, which is to be his summer residence. Yesterday was the first night His Excellency passed at the Malabar Point bungalow.

THE PLAGUE AND THE SUEZ CANAL. TRAFFIC.

THE following post copy of the telegram previously published, from Cairo, to the Political Resident, Aden, has been kindly sent to us by the Secretary to Government, General Department, and with an intimation that it will be observed the post copy differs from the original telegram inasmuch as the words italicised were omitted from the latter:—Cairo, March 14. The following precautions have been taken in Egypt in consequence of outbreak of plague in Mesopotamia. Arrivals from Persian Gulf subject to seven days' quarantine or fifteen days' in cases of sickness on board; ships which have communicated with ships from Persian Gulf subject to like provisions. Vessels going to Mediterranean ports with clean bill of health may, if no suspicious incident has occurred during voyage, and their sanitary condition be *satisfactory, traverse the canal in quarantine after favourable medical inspection: in the contrary case they will undergo fifteen days' quarantine* at Tor. Vessels from Syria to be admitted only after medical inspection and favourable report.

THE NESBIT-ROAD OVERBRIDGE MEMORIAL.

THE memorial to H. E. the Viceroy and Governor-General praying that the G. I. P. R. Company may be compelled to construct an overbridge at Nesbit-road, Byculla, has been signed by between sixteen and seventeen hundred persons, including the leading members of all classes of the community. The memorial was submitted through the Bombay Government yesterday under cover of the following letter:—

To the Chief Secretary to Government, General Department.

SIR,—We have the honour to forward herewith memorial to His Excellency the Viceroy and Governor-General in Council on the subject of the Great Indian Peninsula Railway Company's level-crossing at Nesbit-road, Byculla. In requesting that the Government will be pleased to submit the memorial to His Excellency at its earliest convenience, we venture on behalf of the very large and influential body of gentlemen who have affixed their signatures, to solicit the favour of your moving Government to accord its support to the prayer of the memorialists, whose application is greatly strengthened by the recorded opinion of Government contained in its resolutions Nos. 1312 of 1868 (Railway Branch) and 1240 of 1878, and duly set forward in addition in memorial.—We have, &c.,

Jamsetjee Jejeebhoy, S. D. Sassoon, Vishwanath N. Mundlik, James N. Graham, Byramjee Jeejee. Bhoy, Henry Cook, Muncherjee Nowrojee Banajee, M. A. Rogay.

DR. BLANEY AND THE TRAMWAY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I confess to the charge brought against the *Indu Prakash* by Dr. Blaney——of having wrongly mixed up his name with those Town Councillors who are needlessly airing their rhetoric against the tramway. I can assure the Doctor, for whom the *I. P.* has always entertained great respect, that the mistake was not deliberately committed.

I am glad, however, the mistake was committed, for it has given Dr. Blaney an opportunity of saying, though indirectly, that he does not sympathise with those who hate the tramway as a nuisance. The Doctor has studied the wants of the middle and poorer classes of Bombay with attention, and his opinion is certainly worth much in this matter.—I have, &c.,

EDITOR,
Indu Prakash.

THE DEWAN OF MYSORE.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Preparations are going on in Mysore for the fast-approaching installation of the young Maharaja, which has been definitely fixed to take place on the 25th. Invitation-cards are already in circulation. Those that were not in favour of Messrs. Gordon and Runga Charlu did not receive invitation-cards. They are none but Mysorean officers of high rank. I shall not be able to name them now, but will write to you in my next letter, when I shall also be able to give you some information regarding the installation ceremony. You must have heard ere this how this Mr. Runga Charlu being entrusted with the sole management of His Highness's wedding in 1878 by Mr. Gordon, who took the office of Chief Commissionership from Mr. C. B. Saunders, entirely mismanaged the affairs, and thus (with his twelve' years experience as the Controller of the Mysore Palace) proved utterly incompetent even to hold that office! This gentleman, to say the least, has no adequate knowledge of Native Court etiquette. His ignorance of the language of Mysore, his manners inexperienced in the art of transacting state matters, his personal bearing, his utter want of sympathy towards the people of Mysore, and finally the hated party spirit which is in him, could hardly make him a competent Dewan. Such a man, with all these faults, is thrust by the Foreign Office on to be our future Dewan, and he is to take up the appointment on the 25th, the day of the installation. He is again appointed to manage affairs during the coming installation. With what success it will be attended to, and how he conducts himself, I shall leave it to you to judge.

Mr. Runga Charlu has found a kindred spirit, after all, in the person of the *Daily Post* Editor. All sorts of eulogiums about Mr. Runga Charlu and the party whom he represents are being discussed freely in its columns, or at least it has begun to do so. In fact, almost all the Anglo-Indian journals published in the Mysore province have at least a little patronage of the present Government. So their opinions are hardly regarded as independent. The *Daily Post* of the 19th says that Mr. Runga Charlu was unanimously approved by His Highness, Mr. Bowring, and Sir Richard Meade as the fittest man for the post of Dewan. To give colour to this allegation, the *Daily Post* says it was the written opinion of those officers. But no such thing at all. Mr. Bowring, who was instrumental in bringing Mr. Runga Charlu to Mysore, says in one of his latest letters that "if Mr. Runga Charlu does not get the Dewanship, it will then be time to enquire if another Mysore or Madras Brahmin is eligible for the post." This sentence appeared in the *Madras Standard* of the 16th March. If Mr. Bowring had expressed his opinion otherwise, how did this sentence find its way into the columns of a public journal? In fact, the whole administration, if viewed in its proper light, is full of absurdity and corruption.

The fact is a matter prevalent that Sir Salar Jung and the Raja of Travancore will be present at the installation. But at the same time, under the present *régime*, the financial condition of the province is so poor that the rumour is highly improbable. The province is in a very inefficient state, and properties, both private and public, are quite insecure owing to dacoities, &c. Mysore may aptly be termed a non-regulation province.

The weather is extremely hot. The mango crops promise to be abundant this year. The heat is so intense that it is highly probable that cholera will occur in Mysore.

The new coin paid during the fortnight was Rs. 16. The balance left was Rs. 16,48,291. There is in addition silver bullion valued at Rs. 2,152 belonging to private individuals deposited in the Mint vaults, and awaiting assay.

ST. JOHN'S SCHOOL, DADUR, AT THE CIRCUS.—On Wednesday last the boys of this institution, about 200 in number, had the pleasure of witnessing the Circus performance, at 3-30 p.m. Both the pupils and their teachers were admitted free of charge. Mr. Duxbury, the Traffic Manager of the B. B. and C. I. Railway Company, had likewise granted permission to the boys to travel from Dadur station to Bombay on payment of single fare. The managers of this institution beg to express their thanks for the kindness shown to their pupils.

MATHERAN HILL.—We have received from Messrs. Thacker and Co., the publishers, a copy of the second edition of Dr. J. G. Smith's interesting and valuable little work entitled "Matheran Hill: its people, plants, and animals." The book contains an admirable description of the scenery, a well-written account of the hill tribes, and some excellent notes upon the trees, shrubs, flowers, ferns, mammals, birds, reptiles, and insects to be found on the hill. Visitors to this charming retreat would do well to invest in a copy of this little work.

ARRIVAL OF THE PATRICK STEWART.—The I. G. steamer Patrick Stewart arrived in Bombay harbour yesterday from Kurrachee, which port she left on the 21st instant, with 4 officers (European), 6 officers (native), 350 men, 36 followers, and 4 horses of the 18th Regiment N. I.; 1 native officer and 1 follower of the Poona Horse; and 1 officer and 1 follower of the Medical Department. The following are the names of officers:—Col. J. A. Smith, Captain H. E. Penton, Lieut. L. H. Vidal, and Surg. Faulkner, of the 18th Regiment N. I., and Surg. Major Davidson, Medical Department.

FATAL ACCIDENT.—A coroner's inquest was held yesterday at Nanabhoy Bomanjee-lane, Fort, on view of the body of Heerabai, a Parsee woman, aged about 60 years, who, about twenty-four days ago, while crossing Hornby-row with a bundle of chips, was knocked down by a gharry and sustained some abrasions on her face and complained of pain in her left side. She was removed to the G. T. Hospital for treatment. On the 19th instant Hormusjee Ruttonjee, the son of the deceased, when visiting her in the hospital, observed a swelling on her face, and thinking she was going to die, removed her to his house, although the doctor of the hospital had told him that the deceased was in danger, and that three of her ribs on the left side had been fractured. She continued to sink, and died at 10 o'clock on Wednesday night last. The inquest stands adjourned until to-morrow (Saturday) at 3 p. m.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ending Tuesday, 22nd March, was 387, being 26 less than in the previous week, 134 less than the week ending 23rd March, 1880, and 192 less than the mean of the corresponding period in the preceding five years. During the week 319 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population per annum was 29·87. There were 83 deaths from remittent fever, being 9 less than the previous week, and 100 less than in the same period last year. There were 3 cases of cholera last week, and 2 in the week previous. The deaths from diseases to the respiratory system, diarrhœa, and dysentery were last week 67, 22, and 13 respectively, as compared with 39, 11, and 16 last year. The following remark is appended by the Health Officer to his return:—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years, the percentages of mortality are unreliable."

MAKING FALSE DECLARATION OF GOODS TO THE G. I. P. RAILWAY COMPANY.—Nana Bapoo was yesterday charged at the instance of Inspector Jeffries, of the G. I. P. Railway Police, before Mr. Dosabhoy Framjee, with making a false declaration of goods which were booked by defendant at Bombay for transmission by rail to the G. I. P. Railway station called Tomsar, where the discrepancy was discovered. The goods were declared as a box of sundries and a bale of Europe cotton piece-goods, whereas they were a box containing gold-plated crockery-ware and a bale of silk cloth. The defendant was fined Rs. 25, and in addition ordered to pay Rs. 21-5, the extra charge of the Railway Company.—A Hindoo named Harree was also yesterday fined Rs. 15 by the same magistrate for making a false declaration in regard to a bale, which he declared as containing cotton piece-goods, whereas it contained silk cloth.—A Parsee named Sheriar Jee Hormusjee was yesterday fined Rs. 25 by Mr. Dosabhoy Framjee for making a false declaration of goods to the G. I. P. Railway officials at Warree Bunder, in respect of certain goods which were booked as cases of preserved provisions and glass-ware, whereas they were discovered to contain saddlery, toys, and mirrors.

ADDITIONAL PASSENGERS BY THE HOMEWARD MAIL.

THE P. and O. Co.'s s. s. Teheran, Captain A. C. Loggin, sailed yestereay for Aden and Suez with the Europe mails and the following additional passengers:—

For Southampton.—Mr. J. Rayner. Mr. J. Yeo, Mr. J. Gosden, Mr. E. Ashworth, Mr. A. Henderson.

FATAL ACCIDENT AT THE B. B & C. I. RAILWAY GRANT-ROAD STATION.

THE adjourned inquest into the circumstances connected with the death of Rama Babajee, a shunting porter attached to the Grant-road railway station, who was killed on the morning of the 22nd instant at that station, while shunting railway carriages, was resumed on Wednesday last at the Coroner's bungalow, Byculla.

Mr. J. M. Slater stated.—I am Resident Engineer of the B. B. and C. I. Railway Company, and live at Malabar Hill. I examined the line at the level crossing at Falkland-road this morning, and also examined the check rail on the spot at the time I was told the deceased met with his death. There is an unfilled space between the stock rail and the check rail, and at the end of the check rail there is a wedge-shaped opening which leads to the continuous narrow space or groove between the two rails, the entire length of the road, to admit of the free passage of the flange of the carriage wheels. At the end of the check rail, the rail stands on the ballast, thus leaving an open space three inches wide and four inches deep, which is the state of check rails at all level-crossings. This open space is a danger, if a man is not careful. A man should not be employed in coupling and uncoupling carriages or wagons while a train is in motion; but I know it is frequently done. More ballast might be put in the space at the end of the check rails, to make them less liable to cause accidents, but that would not prevent persons tripping over the rails. There never has, to my knowledge, been any accident from the space in front of the wheel rails on the B. B. and C. I. Railway. The object of the bend in the end of the check rail is to give a clear way for the wheels of engines or carriages.

The jury returned the following verdict:—That the death of Rama Babajee was caused by injuries received by his foot being accidentally caught in a space between a check and stock rail, whereby he was knocked down and run over by a railway train, while attempting to uncouple the cars, the jury are of opinion that the space between the stock and check rails is dangerous, and that more ballast than is now used should be put in to lessen the depth and diminish the dangers.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.—In Disorders of the Skin this safe and simple remedy produces remarkably beneficial effects. J. L. Milton, Esq., Surgeon to St. John's Hospital for Diseases of the Skin, writes:—"After carefully examining the effects of Dr. de Jongh's Light-Brown Cod Liver Oil, and comparing them with those produced by other kinds of Cod Liver Oil, I have satisfied myself of its very great superiority. In some cases of lepra, eczema, lichen, and prurigo I consider Dr. de Jongh's Oil invaluable." Sold only in capsuled imperial half-pints, pints, and quarts, by all chemists, druggists and storekeepers. Sole Consignees: Ansar, Harford, and Co., 77, Strand, London.

HIGH COURT—MARCH 24.

(Before the Hon'ble Mr. Justice BAYLEY.)

DISPUTE REGARDING THE MEMONWADDA MOSQUE.

MEMON HAJEE IBRAHIM TAR MAHOMED AND OTHERS VS. MEMON HOOSEIN MEYA RAHIMTOOLA AND OTHERS.

This suit has been filed to obtain an account from the first defendant of his management of the Memonwadda mosque, regarding which dissensions among members of the caste have existed for some two years. A meeting of members of the caste and other Mahomedans was recently held, at which it was unanimously resolved that the suit, as well as a rule *nisi* obtained by the plaintiffs, should be amicably settled, thereby saving heavy law expenses to the community. A committee was appointed for the purpose. To-day, however, the Advocate-General moved that the plaint in the suit be amended by appointing him the plaintiff, in lieu of the present plaintiffs, and that the conduct of the suit be handed over to him. Mr. Farran, instructed by Messrs. Muljee and Bomonjee, appeared for the plaintiffs to support the Advocate-General's application; while Mr. Lang, instructed by Messrs. Tobin and Roughton for the first defendent. and Mr. Starling, instructed by Mr. Macfarlane for two other defendants, opposed the application. A sum of Rs. 77,500 to the credit of the mosque had been some time ago deposited with the Bank of Bombay in the names of Mr. Bomonjee and Mr. Tobin, solicitors.

The Advocate General said that it had been decided at a meeting recently held to refer the suit for settlement to a committee, but he had sent a notice against such reference through Messrs. Hearn, Cleveland, and Little; and he now applied, on the grounds stated in an affidavit made by Mr. Anandrao Venayek, managing clerk to Messrs. Hearn, Cleveland, and Little, that the conduct of the suit, which was connected with a public charitable institution, should be made over to him. He feared that the reference might result in irregularities.

Mr. Lang said that the Mahomedan community desired that the funds now in the Bank of Bombay should not be wasted in law expenses by a reference to the Commissioner; and they had therefore resolved to come to an amicable settlement, which would be frustrated by the amendment proposed to be made. The parties had been fighting as hard as they could during the last two years, and a sum of Rs. 5,000 had already been wasted. The "jumat" had now stepped in to save a further waste by a reference to four persons of the highest standing and respectability, which was by far the most satisfactory way of settling all difficulties. After having sanctioned the suit to be instituted in the names of the plaintiffs, it was not in the power of the Advocate-General to intervene at this stage and ask to be made a party to the suit. There were no elators here whose place the Advocate-General could take up; and the suit was not filed under the English law, but under the Civil Procedure Code. What the Advocate-General wanted to do now would be completely destructive of the charity. He had still the power to proceed with the proceedings he did not approve of, but he had no power to assume the conduct of the suit. In refusing the application, the learned counsel said the court would be consulting the wishes of the entire Mahomedan community.

Mr. Starling submitted that the court had no power to make the amendment in the plaint asked for by the Advocate-General. The learned counsel's clients were not hostile to the Advocate-General; but they wished to save a further waste of the charity fund, which had been drawn upon during the last two years by the plaintiffs, who were put up by the Advocate-General to interpose every obstacle they could, and who did not bring the suit to a hearing.

His Lordship, after stating the nature of the application, remarked that it was contended that this court had no power to make the amendment in the plaint asked for; and that if it had, the circumstances of the case were not such as to justify the court in making the order sought for. After referring to several English cases as to the extent of the powers of the Advocate-General, his Lordship observed that he would not go to the length of saying that all those powers existed here; but that it would be difficult to affirm that they did not apply to the present case. His Lordship was strongly of opinion, upon the authority of cases to which he referred, that the Advocate-General had now the same powers in cases of this kind that he ever possessed before. Some improper compromise might be come to; and unless the Advocate-General was made a party, he would not be in a position to bring irregularities to the notice of the court, as it was his duty to do. In the present case he represented a public charity on behalf of the Crown, and he was entitled to step in at any stage in the interest of the charity. Having read the affidavit, his Lordship considered with the Advocate-General that it was not desirable in the interests of the charity that the proposed reference should take effect; and his Lordship thought that the Advocate-General should be made a party plaintiff, so that the suit should not be jeopardised. The reference would be highly detrimental to the charity, and he would therefore made the order asked for. The Advocate-General to have his costs out of the property in the suit: costs of the other parties reserved.

CHEATING BY WITCHCRAFT.

AT the Fort Police Court on Wednesday last Jamall Mowjee, a moonim, accompanied by his solicitor, Mr. Mirza Hoosein, appeared before Mr. P. Ryan and filed a long information against Ahmed Ali Mahomed Ali, a hakeem, charging him with cheating, theft, and criminal breach of trust, in respect of sundry amounts of money, jewellery, &c., alleged to have been received by the accused on the pretence of teaching the complainant the art of converting copper into gold by some mysterious agency; and prayed that a warrant might be issued for his apprehension. His Worship granted the application, and the accused was arrested the same day. The following is, briefly, the substance of the information:—

Jumal Mowjee, a moonim in the service of Curimbhoy Ibrahim, and residing at Oomercarry, said that some time in August last he was suffering from itch, in consequence whereof he went to Ahmed Ali Mahomed Ali, a hakeem (doctor). The hakeem gave him some powders, and the treatment was continued for about a month and a half, during which time Rs. 110 were paid for fees. At the recommendation of the hakeem the complainant purchased a quantity of ammonia, worth Rs. 1-8, from one Ismail, and it and kept it at his dispensary, at Wadgadey, and desired him to call the next day. The complainant went as desired, but found the dispensary closed, and no information could be obtained as to the hakeem's whereabouts. At the 10th January last the hakeem went to the complainant's place of business in Shamjee Hassajee-street, and told him that he had been to Mecca on a pilgrimage and consequently he was absent from Bombay. About two days afterwards the hakeem again called and asked of the complainant a four-anna piece to be brought to his dispensary, which he did. The hakeem applied some gummy substance to the coin, and after sprinkling some white powder over it, wrapped it up in a piece of cloth and placed it on fire. To the surprise of the complainant, the four-anna piece changed into a gold coin. The hakeem then offered to teach the complainant the art of turning copper into gold. At an interview with the hakeem the latter produced a bundle of twelve bangles which, he said, were made of gold, and having taken the complainant to a well near the Khoja burial-ground close by, bade him throw them into the well. On a second occasion the hakeem gave the complainant twenty-four bangles and five finger-rings to be thrown into the well as an offering to the *Beebees* (fairies). The hakeem then requested the complainant to give him Rs. 100 to be presented to Khoja Khedhur, a Mahomedan deity. An earthen jar was also produced at the time containing a hundred quarter-anna pieces, and the complainant being told to close his eyes for a while three of the coins were to his surprise changed

NOTICE TO MARINERS.
(No. 5.)

BAY OF BENGAL—BRITISH BURMA.
AKYAB.
BEACON ON TABLE-LAND OF BORONGO ISLAND.

AS a guide to vessels approaching the port of Akyab, and in order to distinguish Tableland from the other hills on Western Borongo, a basket beacon has been erected on the top of the old light-tower.

The tower is painted white, and, in the afternoon, shows up well against the trees in the background. The beacon is eight feet in diameter, is painted black and yellow in perpendicular stripes, and, in clear weather, can be seen above the trees from a distance of nearly 10 miles.

By Direction of the Government of India,
A. DUNDAS TAYLOR, Comdr. (late I.N.),
Superintendent, Marine Survey of India.
Marine Survey Department, Calcutta, 24th February 1881.

This Notice affects the following :—

EPPS'S COCOA.
(BREAKFAST.)

By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well-fortified with pure blood and a properly nourished frame."—See article in the *Civil Service Gazette.*
